What is this product?

Type:

This product is a UCITS Fund.

Objectives:

The Fund aims to increase the value of your shares through a combination of growth and income by investing in a concentrated portfolio principally in securities issued by Real Estate Investment Trusts ("REITs"). The Fund can invest in:

- Equity REITs which invest the majority of their assets in property and derive their income from rents and capital gains from appreciation realised through property sales
- Mortgage REITs which invest the majority of their assets in real estate mortgages and derive their income mainly from interest payments
- Hybrid REITs which combine the characteristics of both equity and mortgage REITs
- Debt securities

The Fund may invest in companies of any market capitalisation but shall typically invest in REITs that have market capitalisation greater than USD \$300m at the time of purchase. REITs are companies or trusts that invest mainly in income producing real estate. They may invest broadly or specialise in a particular sector such as offices, industrial buildings or shopping centres. The Fund does not invest directly in real estate.

The Fund may invest up to 20% of the Portfolio's Net Asset Value (NAV) in debt securities.

Illiquid securities are securities that cannot be expected to be sold within 7 days in the ordinary course of business for approximately the amount at which the Portfolio has valued the securities. These may include unlisted or other restricted securities, which at all times will be in accordance with the requirements of the Central Bank of Ireland.

The Fund promotes environmental and social characteristics pursuant to Article 8 of SFDR.

As your shares are in Australian Dollars and the Fund is in US Dollars, currency exchange contracts are used to reduce the effect of changes in the currency exchange rate.

Any income earned on investments will be added to the value of investors' shares.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

Term:

The Fund has no fixed maturity date, however it may be terminated in certain circumstances as described in the prospectus including if the Net Asset Value of the Fund does not exceed or falls below US\$75,000,000 (or such other amount as may be approved by the Directors).

The shares may be exchanged for shares in another sub-fund in accordance with the terms of the Prospectus. Charges may apply.

Shares in the Fund can be bought or sold on any day defined as a Business Day in Prospectus.

NBIF is established as umbrella fund with segregated liability between sub-funds under Irish law.

Brown Brothers Harriman Trustee Services (Ireland) Limited (BBH) is appointed as the depository of NBIF.

You can obtain copies of the Prospectus and the latest reports and accounts for NBIF free of charge in English, German, French, Italian and Spanish, along with the latest published prices of shares and other information on the Fund, free of charge from BBH (the "Administrator"), 30 Herbert Street, Dublin 2, Ireland.

Intended retail investor:

This fund may be compatible with the needs of investors seeking a fund to deliver income and/or capital growth with an investment horizon of 3 years or more, as part of a diversified portfolio of investments.

This is a high risk product and investors should consider this when deciding the mix of portfolio investments.

Investors who are unsure that they have the knowledge and experience to make informed investment decisions about this product or to construct a diversified portfolio should seek professional investment advice.

The product is unlikely to be compatible with the needs of those investors seeking a single investment, or who require preservation of capital or to achieve a specified return by a particular date.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the ability for you to receive a positive return on your investment.

This product also carries market risk, operational risk, counterparty risk, currency risk, and other risks. Please refer to the "Risk Factor" section of the Prospectus. This product does not include any protection from future market performance so you could lose some or all of your investment.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of NBIF plc over the last 4 years.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 4 years

What happens if NBAMIL is unable to pay out?

Investors may face financial losses as a result of the default of the Fund, NBIF, NBAMIL or any of the service providers appointed to the Fund, including the sub-investment managers (or their affiliates), the Administrator, the Depositary, or a trading counterparty. Any such losses are not covered by any investor compensation or guarantee scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is AUD 10,000.

Investment: AUD 10,000	If you exit after 1 year	If you exit after 4 years
Total costs	703 AUD	1,430 AUD
Annual cost impact (*)	7.0%	3.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.3% before costs and 2.9% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. This includes the costs of distribution of your product.	489 AUD
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 AUD
Ongoing costs taken each year		If you exit after 1 year
