

KraneShares ICBCCS SSE Star Market 50 Index UCITS ETF

KraneShares ICBCCS SSE Star Market 50 Index UCITS ETF is a sub fund of KraneShares ICAV (the "ICAV"). The ICAV is authorised as a UCITS in Ireland and regulated by the Central Bank of Ireland.

Investors should read the Prospectus, Supplement and UK KIID and/or PRIIP KID prior to investing.

Investment Strategy:

KSTR seeks to track the performance of the Shanghai Stock Exchange (SSE) Science and Technology Innovation Board 50 Index (STAR 50 Index). The Index is comprised of the 50 largest companies listed on the SSE Science and Technology Innovation Board (STAR Market) as determined by market capitalization and liquidity.

STAR Market Highlights:

- Facilitates the fast-tracking of private science and technology companies to an initial public offering (IPO).
- Since its establishment in July 2019, the STAR Market has become one of the largest IPO markets globally¹ and a premier listing venue for prominent Chinese unicorns (privately held startup companies valued at over \$1 billion).
- Recent increases in fund-raising activity on Chinese exchanges can largely be attributed to the STAR Market, which accounted for 41% of capital raised across China's Mainland A-Share market in 2022².
- Potential inclusion in the SSE Composite Index and Shanghai-Hong Kong Stock Connect could result in greater flows for STAR Market securities.

KSTR Features:

- Exposure to companies poised to be China's future leaders across industries that could represent the growth engine of China for decades to come.
- Innovation-driven science and technology companies in China that offer a potential source of uncorrelated, long-term growth.
- Includes companies from industries such as new-generation information technology, biomedicine, new energy, and environmental protection.

Investing involves risk, including possible loss of principal. There can be no assurance that a Fund will achieve its stated objectives. The Funds are subject to political, social or economic instability within China which may cause decline in value. Fluctuations in currency of foreign countries may have an adverse effect to domestic currency values. Emerging markets involve heightened risk related to the same factors as well as increase volatility and lower trading volume.

Narrowly focused investments typically exhibit higher volatility. Internet companies are subject to rapid changes in technology, worldwide competition, rapid obsolescence of products and services, loss of patent protections, evolving industry standards and frequent new product productions. Such changes may have an adverse impact on performance.
