Barclays Quantic Global E NR UCITS ETF 1C (EUR)

STRATEGY DESCRIPTION

The investment objective of the Barclays Quantic Global E NR (the "Fund") is to replicate, before deduction of the Fund's fees and expenses, the performance of the Barclays Quantic Global E Index (the "Index"), expressed in EUR. The Index is a Barclays index designed jointly with Quantic Financial Solutions GmbH and calculated by Solactive AG. The Index invests in global developed market equities, selected on the basis of the highest fundamental scores provided by Quantic and their environmental risk rating provided by Sustainalytics.

IMPORTANT INFORMATION: Performances are net of charges. The value of the investment and the income from it will vary and your initial investment amount cannot be guaranteed. ETFs trade on exchanges like stocks and are bought and sold at market prices which may be different from the net asset values of the ETFs. **Past performance does not predict future returns.**

Risk Consideration: Please note that the fund is subject to specific risks such as ESG investment risk and geographic concentration risk, in addition to common market risk. To know more about these risks, please refer to the Key Information Document and Prospectus prior to investing. This product promotes environmental or social characteristics but does not have as its objective a sustainable investment. It might invest partially in assets that have a sustainable objective, for instance qualified as sustainable according to the EU classification.

Please note that if the currency of the fund/share class is different from the currency of your area, any losses or gains generated by the fund/share class may be affected by exchange rate fluctuations (both upward and downward).

SYNTHETIC RISK & REWARD INDICATOR

The Share Class is ranked 5 on the synthetic risk indicator scale, which is based on historical data. Due to its exposure to equity markets, the Fund may experience important volatility, as expressed by the rank on the above scale. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean "risk free". You could lose all or part of your investment.

ESG Investing Methodological Limits : ESG Investing Methodological Limits : By using ESG criteria in the investment policy, the relevant Fund's objective would in particular be to better manage sustainability risk. ESG criteria may be generated using Ossiam's proprietary models, third party models and data or a combination of both. The assessment criteria may change over time or vary depending on the sector or industry in which the relevant issuer operates. Applying ESG criteria to the investment process may lead Ossiam to invest in or exclude securities for non-financial reasons, irrespective of market opportunities available. ESG data received from third parties may be incomplete, inaccurate, or unavailable from time to time. As a result, there is a risk that Ossiam may incorrectly assess a security or issuer, resulting in the incorrect direct or indirect inclusion or exclusion of a security in the portfolio of a Fund.

Sustainability risk : The Fund is subject to sustainability risks as defined in the Regulation 2019/2088 (article 2(22)) by environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment. More information on the framework related to the incorporation of Sustainability can be found on the website of the Management Company.
